Feel better

**CYCLOID VIBRATION
THERAPY (CVT) DEVICES**

First established in 1949, Niagara has millions of daily users worldwide. It is manufactured in their own facility in Australia

All Niagara products incorporate a low frequency 3-dimensional Cycloid vibration which delivers a non-aggressive deep tissue massage. This penetrates deep but gently into the body's soft tissue without traumatizing the tissue and without harmful side effects

Niagara has conducted Medical and Clinical Research with the following Universities and Medical Facilities. It is also utilised in the training of Students in Teaching Universities and Hospitals.

Worldwide user base for Niagara

Flagship hospitals around the world use Niagara. Among them are several NHS Hospitals UK, Sydney University Medical Department, Australian Defence Force, Australian Institute of Sport, Taiwan Veterans Hospital etc. In addition to this several high-profile professional sports people use Niagara regularly. Refer to our website for more details.

Niagara is also popular among age care homes in various countries. In Taiwan, Suan-Lien Elderly Center San Zih, Guang Enn Elder House-Hsin Dien, Tsu An Elder House etc use Niagara. In Australia Uniting Group, BlueCare Group Australia, Regis Aged care, Australia etc use Niagara.

We are with you before and after the sale

Niagara has a long-proven technology, robust enough for either home or clinic. The products are covered by local warranty with first three months no questions asked exchange, in remote chance of failure. Niagara products are easy to sterilize.

Niagara products are clinically proven to:

- Increase local area blood flow
- Assist in the reduction of musculoskeletal pain
- Reduce excess edema (Swelling)
- Assist in the treatment of wounds (where an improvement in local circulation is a factor).
- Assist in the treatment of pressure ulcers where an improvement in local circulation is a factor.
- Assist in joint mobilization

In addition to the above Niagara products have been proven to help clear mucus and prevent lung collapse (keeping the airways clear).

The CVT CycloPad

The CVT Cyclopad

The Cyclopad is generally used for helping circulation in larger areas of the body and when the user prefers to let machine do the job. It comes with its own remote control making it easy for user to control the unit during therapy.

The Pad has 6 timer settings of 10 minutes each as well 6 massage intensity settings. It also incorporates a heat function, 3 massage types for you to choose from, It works on 220V AC. Optional battery is available on request.

The CVT Hand Unit

The Niagara CVT HandUnit is a highly portable therapy tool used to provide relief and treatment into isolated problem areas. Whether it is for your hands, knees or feet, the Niagara HandUnit is often used in conjunction with the Niagara Cyclopad to provide more versatile CVT treatment options.

The HandUnit has 5 timer settings of 6 minutes as well as 5 vibration intensity settings. It comes with rubber adapters for treating joints or other bony structures. Works on 220V AC. Optional battery is available.

CVT HandUnit

The Niagara CVT products are medical devices that can be used at home or in the clinic. They are FDA and CE approved, as well as approved for sale in Singapore by HSA.

The Niagara CVT products are easy to operate – plug and go - and can be used in various comfortable positions on your favorite couch or whilst lying on the bed. Call us for a free discussion and demonstration,
